

Antenatal iron deficiency Staff feedback survey

Antenatal clinic pilot feedback

[Organisation name] is working on a clinical practice improvement initiative to improve maternity patient blood management by identification and management of iron deficiency and anaemia.

Your feedback on the use and value of the tools provided is important to us and greatly appreciated. This evaluation will help us in providing the direction for the initiative. It will close by end of the pilot on [pilot end date].

Thank you,
CPI Improvement Working Group

Completing this survey is voluntary. The information you provide may be subject to research and statistical reporting. We comply with the Privacy Act 1988 and as such, any information obtained in connection with this survey that can be identified with you, will remain confidential and will be disclosed only with your permission or except as required by law.

1. What is your role?

Midwife Obstetric registrar Consultant Resident Medical Officer Other (please specify) _____
